Certified: UPC, EGS

It is vital that tub is completely level for drain to work properly.

- **IMPORTANT! TEST THE TUB'S DRAIN AND JETS (if any) BEFORE PERMANENT INSTALLATION!**
- **INSPECT THE TUB WHEN RECEIVED!** Report any damages or missing parts within 5 business days of delivery date.
- Before ordering or installing, please consider future access to equipment.
- **Please measure tub on-site before building tub surrounding!**
- Jet, pump & blower locations are predetermined and cannot be changed.
- Tub door must remain closed when not in use.

- Please note that installer(s) must be certified or warranty will be voided.
- Measurements are subject to a +/- .5" variance and subject to change without notice. Measurements here in supersede all other published specs prior to publication date shown below.
- Inline heater (if included) is designed to maintain water temperature during operation. It will not heat cold water to desired bathing temperature.
